

WIDEDECK

Pre-Flop Charts:

When To Play Your Hand

Introduction

These preflop guidelines provide a solid foundation for your initial decisions in WideDeck Poker. While they work well generally, it's essential to adapt based on your specific situation.

With WideDeck's removal of numbers 2 through 5, and the addition of a six suit hierarchy, even avid Texas Hold'em players will need to adjust their pre-flop strategy to factor in the new possibilities.

In the pages that follow, the charts will cover our recommendations based on our estimates for each table position that you may be in, concentrating solely on RFI (raise first in), so when you're the first player to enter the pot voluntarily.

Instructions

Step 1:

Find your table position at the top of the page, this guide features 9 different table positions.

Step 2:

From your hole cards, find your best suit from the column on the left. If your cards are the same suit, use the first chart.

6	6A	6K	6Q	6J	6T	69	68	67	66

Step 3:

Use the top row to find the rank (number or face card) of your second card.
